SATYA Shakti Foundation
(Implementing Agency)

Activities in a Nutshell

Highlights of the Activities of the Year 2022 – 23

Activity Name	Locations	Brief Summary
e-Clinic	Bulandshahr, UP & Haridwar, Uttarakhand	The objective of SATYA Shakti Foundation through its e - Clinic is to give a platform of primary treatment at the door step to the needy people in the community across various states. These primary treatment helps people to know the basic requirement of a prolonged symptom which may require a secondary or tertiary treatment. SATYA Shakti Foundation will contribute for the treatment of most needy children for the rare diseases. The objective is to reach out to the most needy and poor child whose parents are unable to give the treatment.
Health Camps	PAN India	Health check-up camps to be organized at various locations Pan India. These Health Camps are expected to be very helpful in supporting the primary treatment of the community people. Also as a part of Health program, SATYA Shakti Foundation in collaboration with SATYA Micro-capital, is to organize wheel chair distribution across the various states of the country

1. e-Clinics:

A total of 11 e-Clinics are operational in which 6 e-Clinics are operational in Bulandshahr, Uttar Pradesh & 4 e - Clinics at Haridwar, Uttarakhand through which we are providing free medical consultation services and generic medicines to villagers of the District.

More e-Clinics are being planned to be opened across various locations pan India this Financial Year. As planned 1 e – Clinic at Himachal Pradesh has already been functional in village Rajpura of Sirmour district.

2. Free Health Check-Up Camps

SATYA Shakti Foundation has already organized 65 Health Camps in various states of India. During this current Financial Year 40 Health camps have been organized. The aim of this initiative is to create awareness among the people on taking care of their general health and not neglecting any symptoms that may require immediate medical attention. Usually people prefer to go for work rather than treatment with an anxiety to losing a day's income standing in long queues at the hospitals. Therefore, these health camps were to provide general health consultations and facilitate general counselling on basic healthcare practice.

All the people who attended these Health Camps availed medical guidance and consultation from MBBS doctors for issues ranging from mother and childcare to diet and nutrition, availing generic medicines etc.

SATYA Shakti Foundation will contribute for the treatment of most needy children for the rare diseases. The objective is to reach out to the most needy and poor child whose parents are unable to give the treatment to the children with these rare disease. An appropriate amount will be planned to be contributed.

SATYA Shakti Foundation will also organize camps spend time with the specially abled children and their mothers and encourage them who are doing extraordinary for their children. All the children will be given a token of love in the form of a kit along with specially designed wheelchairs to children for their special needs.
